NEVADA STATE JOURNAL

C. C. POWNING Editor & Proprietor

SATURAY.....DECEMBER 1, 1888.

Mr. E. W. Haldorff, who is President Harrison's private secretary, has had an honorable and useful career. The Indianapolis Journal, of which he is now managing editor, has been known to be offensively partisan at times, but it nevertheless holds a prominent place among the bright, wide awake and clean newspapers of the West. The Journal's judicious voicing of General Harrison contributed in no small degree toward making him President. If Editor Haldorff achieves the same degree of success in his new sphere that he has attained in journalism he will certainly be the right man in the right place.

Information comes from Indianapolis that General Harrison will consider favorably the selection of ex-Governor Proctor, of Vermont, as the New England member of his Cabinet. The Postmaster Generalship of the Interior Department is the place most probably accorded him. Ex-Governor Proctor led the Vermont delegation at Chicago, which stood by Harrison from the first. Vermont has had no Cabinet representation, and demands it now as a matter of equity.

The Secretary of the Interior has decided that the Northern Pacific Company had no legal right to build its road through the Puyallup Indian Reservation in Washington Territory. The right of way was granted by an Executive order and the Secretary holds that Congress alone can grant such rights. The company will apply to Congress for relief.

The total vote of Michigan this year is 70,000 greater than it was in 1884—an increase of 17 per cent. The gain of 1884 over 1880 was 14.7 per cent. The vote of Illinois was 11 per cent. larger than four years ago, and that of Ohio only 7.5 per cent.

General Sheridan's memoirs have just been simultaneously issued in London and New York, and the people of both Eng and Amer will be eager to learn the story of the civil war from the lips of our great cavalry soldier.

P. T. Barnum, the great showman, has retired with a fortune of \$10,000,000, the greater part of which was paid him by the people for the pleasure of being humbugged by Feejays, mermaids and woolly horses.

New York went Republican in 1872 by 52,737, New Jersey 14,180, Connecticut by 4,350, Indiana by 21,090, Ohio by 31,263, California by 12,227, Massachusetts by 74,300, and Pennsylvania by 135,918.

Georgia is rearing a healthy crop of young politicians. The Presidential Elector just chosen had barely attained their majority, and the presiding officer of the Legislature were both born in 1852.

Some one is always wanting special legislation. Here comes a Connecticut man advocating the passage of a law compelling railway restaurant-keepers to date their apple pies and sandwiches.

Singular as it may appear, Harrison's vote in New York was 606 greater than Hill's vote for Governor. That shows that in 1882 Harrison can carry New York against Hill or anybody else.

There is one pretty good Democrat in this country who is not mourning much over the defeat of his party in the recent election. The gentleman referred to is Samuel J. Randall.

Public Printer Benedict is credited with an intention to make a "clean sweep" of the few remaining Republicans and women in his office before inauguration day.

In 1840 General W. H. Harrison had a majority in Pennsylvania of 349 votes. His grandson in 1888 carried the State by 70,000. They are progressive people in that State.

The second Congress district in Louisiana is mainly made up of white voters, and it is the only close district in the State. "White men are uncertain."

The Mugwump vote in New York is no longer a factor in politics, and will be harmful rather than beneficial to the candidate for whom it is pledged.

Our esteemed South Carolina contemporary, the Charleston News and Courier, declares that the Mugwump is not as black as he is painted.

It is authoritatively announced that if Werner Miller cannot get the treasury portfolio he will not except anything from Harrison.

John L. Walker, of Kansas, is the only colored man in the Electoral College this year.

THE SILVER QUESTION.

The Silver State remarks:

Suggestions from a practical mining man relative to the silver question are printed in another column of the Silver State. He thinks it advisable for silver miners to call State conventions and embody their views in resolutions to be submitted to a National Convention, to be composed of delegates from State and Territorial conventions, which in turn will select a committee to visit the Boards of Trade of the large cities and, if possible, secure their endorsement of measures to be introduced in Congress with the view of securing the removal of silver.

The suggestions may or may not meet the approval of silver bullion producers, but if others have more practical ideas on the subject it is hoped they will make them public. It is high time that something be done for the benefit of the silver producing industry. The fact is undeniable that our State is on the decline, mainly because of the low price of silver. Our voting population is less than is also our taxable property, than when the State was admitted into the Union twenty-four years ago. Many once flourishing mining camps are deserted, and some counties in the State are bankrupt, with no hope of bettering their condition until silver is restored to or near its old standard. Under the existing condition of affairs there is no encouragement for prospectors, and only the richest silver mines can be worked with profit. With the exception of a few counties—Wasco, Humboldt and Elko—which have agricultural and grazing as well as mineral resources, Nevada is on the wane, and it will continue to decline unless better prices are realized for silver. There is virtually nothing in the State to induce immigration, as every stream and spring, from which water can be procured for irrigation, is claimed, and the only resources for new comers is mining and that is not inviting with silver bullion at 93 cents per ounce.

If the silver producing States and Territories combine, and if they can't secure favorable legislation otherwise, organize a silver party, they will soon be joined by all the Western States and will hold the balance of power, if not an absolute majority in Congress, which will right the wrong of 1873.

It is a gross injustice to those engaged in silver mining that, while the industry is paralyzed, eight or more millions a year derived from the profit of silver coinage should be flowing into the clogged Treasury of the United States, but there is no hope for a change in the interest of the miner so long as the miner permits himself to be used as a tool by place hunters.

John F. Swift's chances for a Cabinet appointment.

New York, Nov. 27.—An Indianapolis special to the Herald says: Another man who is reasonably sure of a Cabinet position is John F. Swift of California. It is almost certain that the Pacific Coast is to have something.

Harrison feels kindly toward E. T., but he is thought to be handicapped by the railroad interests, and, therefore, is not available.

Swift is said to be acceptable to all creeds and factions. It is about as good as known that the Cabinet-maker has his eagle eye steadily fixed in the direction of Miller and Swift.

Funeral of W. F. Edwards.

SPokane Falls, November 28.—W. F. Edwards, formerly editor of the Truckee, Cal., Republican, late City Clerk here and well-known all along the Pacific Coast, was buried today. He had the largest funeral ever in Spokane.

John Harris, of Grass Valley, Ky., died on hearing the news of Harrison's election. It is supposed that he thought Kentucky had gone for Harrison, and the shock was too much for him.

The railroad people have already begun the discussion of the matter of rates for persons attending the inauguration of President Harrison at Washington next March. It is like y that all the lines will combine and make one fare for the round trip.

Up to date General Harrison has had a mountain named for him, two big gas wells, a new variety of apples and forty-four babies.

General Harrison's Indianapolis residence is thronged daily with distinguished politicians from all parts of the Country.

Colonel Henry Watterson called loudly on every Democratic Federal officeholder to resign on the 4th of March.

RECOUNT.—The Pioche Record says:

The recount last Saturday of the vote for members of the Assembly resulted in a majority of one in favor of the Democratic nominee A. O. Lee, his vote standing 152, while D. C. Clark and E. H. Pieron the two other nominees stood on a vote of 151. Pieron and Clark each lost one in Pioche and Lee gained one; Lee lost one in Pioche and Clark gained one in Eagle Valley, the result being as stated above. Some of the ballots were well scratched, requiring close scrutiny to determine for whom in each case to be voted. Some dissatisfaction was manifested and the present result may not be allowed to stand undisturbed.

BONDED DEBT.—The Pioche Record remarks:

By an item in another column it will be seen that the long-expected judgment of the Court has been rendered against this county for \$32,000. This nearly approaches the value of all the taxable property in the county, and how the bond-holders are to be paid at present is a puzzle.

It is authoritatively announced that if Werner Miller cannot get the treasury portfolio he will not except anything from Harrison.

John L. Walker, of Kansas, is the only colored man in the Electoral College this year.

Robert Bailey, of Eureka, will, if he can secure a house, locate his family in Reno, where his children can have the benefit of our superior school advantages.

Mrs. Lillian Merrill, who has been assistant in the C. P. telegraph office at Reno has been promoted to be operator at Clark's Station. Mrs. Merrill has justly earned the promotion.

Commissioner McLaughlin agitates, and offers good reasons, for a Building Loan and Savings Association. Reno ought to have had one long ago, as the Journal has frequently remarked. It is never too late to do good, and the Journal will aid the Commissioner in carrying out the scheme.

All parties who are interested in fine stock will attend the sale of blooded Short Horns to-day at 1 o'clock at the stable of A. Benson. It is an evident fact that this is one of the best lots of cattle ever brought to Reno, and we hope that our stockmen will lend a helping hand and when they are placed under the auction hammer they will show their appreciation of fine stock.

The Nevada mill of sixty stamps is now running on ore from the Chollar and Hale & Norcross. The mill is run by electric power, by which the waste water sent through the Savo Tunnel is utilized. It is said to be the largest electric motor plant in the world. It is pronounced a perfect success. By ore assaying only \$5 per ton can be worked at a profit. This means much for the Comstock mines.

Curious FIND.—The following is from the *Lesser Advocate*: "The railroad surveys that are running the line west of Eagle Lake come upon a cache, consisting of six one-gallon cans of syrup, and a sack containing nearly 100 pounds of new horse skins. They were under a sheet of lava in a dense pine thicket, the place being almost inaccessible. By whom or for what purpose they were placed there is a conundrum to be answered."

'RAH FOR WADSWORTH.'

The Republican Thanksgiving in Reno's Sister Town.

The grand ratification meeting and ball at Wadsworth Wednesday night was a complete success in every particular. While the entertainment was inaugurated by Republicans, the festivities were in no sense political. All were invited and everybody was there—Democrats, Republicans, Prohibitionists and mugwumps. The people came in from along the railroad as far east as Lovelock. A large delegation came from the Carson Sink, and all along the Carson river, as far south as Satro. Bonfires on the streets and music in the air gave the village a veritable Fourth of July appearance. All seemed bent upon having a good time and none were disappointed. Hastings' Cornet Band furnished excellent music, and the super served at Donaldson's was never exceeded. The hall decorations were most beautiful and attractive, and exhibited the unmistakable judgment and tact of Mrs. Whited, who supervised the work. The young people were not permitted to monopolize the dancing. Such old veterans as Tom Herman, Sawyer, Richards, Cassidy, Angus and Taylor joined in the giddy dances with that vim for which each and all were noted in the "earlier and better days." Just before the grand march was announced, Uncle Bill Gibson was called upon for a speech, and as there happened to be a shorthand reporter in the audience the JOURNAL is able to give a tolerably correct report. The Wadsworth idea of a political ratification was to the speaker a new departure. Wadsworth had set an example in the way of political jubilees that could, with great propriety, be followed by every patriotic community from Maine to Alaska. The successful party prepares a banquet to which the devotees of every other political faith are invited to join, and in the festivities of the occasion banish from memory every vestige of animosity or ill-will that may be engendered during the campaign. This of itself was deemed sufficient grounds for rejoicing. But American people, irrespective of party, have reason to rejoice at the peaceful termination of every Presidential contest, for the reason that each furnishes additional evidence of the stability of the American nation, the righteousness of our institutions, and above all, the capability of our people to exercise the God-given right of self-government. For more than a century it has been the prediction, the wish, the prayer and the hope of European crowned heads that our Government must sooner or later go to pieces in some fierce political contest. They mistake the temper of our people. True, we usually make a great deal of noise and fuss during a political campaign, and no doubt, where the wish is father of the thought, outsiders sometimes think we are ready to eat each other's throats. But just let one of them "chip in" and see how quickly he discovers his mistake. The famous diplomat, Lord Sackville West, had attempted to do so a short time ago and was so promptly fired that it almost took his breath, and that, too, by the very party he had hoped to favor. The fact that our people can meet and join heart and hand in political jubilee so soon after a Presidential contest, shows that our political battles are not so terrible after all; that the sharp criticisms indulged in are neither made nor received in anger, and never in a personal sense. Hence the recollection of all that may have been said or done vanishes with the smoke of battle. General good feeling prevailed throughout the entire evening's entertainment, and the dancing was kept up until the approach of daylight warned the jolly crowd to disperse. Thus ended one of the most brilliant and enjoyable entertainments of the season.

To the PUBLIC.—Mr. Geo. Cutting, of Reno, and E. J. Rother, late of San Francisco, will to-day Dec. 1st, open their new store on Virginia street. Their business is to be known as The Nevada Tea Company, and to be conducted under the same system as similar stores are conducted in San Francisco and the East. We have visited these gentlemen in their place of business, and inspected their goods. The gentlemen are polite and courteous in their manners and their goods are of the best and finest assortment ever before introduced in this community. This is an enterprise which should be encouraged as it deserves, by a liberal patronage of our people. A long felt want is at last to be introduced in our city and we earnestly wish the boys all success in their efforts. See their new ad. elsewhere.

"BLACK BART" DISAPPEARS.—"Black Bart," who was recently released from jail, has disappeared rather mysteriously, and the detectives connected with Wells, Fargo & Co's seem to have world wide to locate him. It is reported that he left for the East after getting out of the penitentiary, but there is suspicion that he is implicated in the numerous stage robberies committed of late.

AN EDUCATIONAL CAMPAIGN FOR SILVER.

A Miner's Suggestions on the Subject.

DUN GLEN, Nov. 26, 1888

Editor Silver State: Four years ago we had a Silver Convention in this State which does not seem to have done anything to benefit silver. Let us try another one, having in view the following objects: To remove the prejudices against silver that now exists in the United States, and to remonetize silver. To accomplish this, I suggest that another Silver Convention be called during the next session of the Legislature. That the Legislature be requested to invite the silver producing States and Territories to join us in a National Silver Convention, to be held at Denver. That the State and Territorial Silver Conventions send two or three delegates each to the National Convention; that the National Convention select a committee of three or four members of the convention to call upon and explain the silver question to the Board of Trade of the leading cities of the United States, and that, if possible, they secure the endorsement of these Boards of Trade to some just silver measure; that after visiting the leading Boards of Trade throughout the country the committee proceed to Washington, and while there have such bills prepared and introduced as will effectively settle the silver question, on a basis of justice to the country and to the silver producers, and that in the meantime the silver miners devote a little time to the serious consideration of this subject, and if possible determine what they want, and how these wants can be provided for. We must be prepared to make many concessions. In the first place, in justice to the popular and just demand, the enforced coinage of any stated amount of silver should cease, as that measure carries with it a threat that the people must use silver coins whether they want to or not. The truth is that metallic money is an inferior labor saving device as compared with notes or paper money, and to try and compel the people of the country to use metallic money is about as unjust and ridiculous as it would be to try to force them to travel by ox teams instead of railroads.

If we can induce the people of the country to accept a double standard on some just basis between silver and gold, the silver bullion producers can then take their bullion to the mints and for it receive silver certificates or notes, or fine or standard silver in bars or ingots, and the Government can coin just as much or as little silver as the business of the country calls for. If we will earnestly and intelligently endeavor to convince the people of the country that we desire only a just settlement of the silver question, a just educational silver campaign will be thoroughly effective.

A MINER.

Two Lucky Men.

On the 17th of October this paper announced that lightning had struck in Yerington, or the same thing, a streak of luck that made some excitement. In September M. C. Harrell, a laborer on J. C. Pfeiffer's farm, won his one-millionth ticket No. 46,755 in the Louisiana State Lottery, and that number drew the big \$300,000 prize on October 9th. J. C. Pfeiffer owns half of this Harrell ticket, which entitles the holders to \$15,000. The ticket was deposited for cash with Wells, Fargo & Co.'s Express Company at Portland, Oregon. The collection was promptly honored by the Louisiana State Lottery at New Orleans, and the money, gold coin, is now in Portland ready to be paid over upon proper receipt for it. Both the lucky men are honest grangers, and, as their hands are level, will know just where to put their unexpected wealth to do them the most good.—Vancouver (Wash. Ter.) Independent, Nov. 7.

NATIONAL SURGICAL INSTITUTE.—Two or more Surgeons representing this Institute will be at the Depot Hotel, Reno, Dec. 14th; the Ormsby House, Carson City, Dec. 15th; and at the International Hotel, Virginia City, Dec. 17th, 1888. They come fully prepared with all the apparatus necessary for the successful treatment of their specialties, curvature of the spine, diseases of the hip and knee joint, crooked limbs, club feet and all bodily deformities. Their success in treating these troubles as well as all chronic and sexual diseases has made for the Institute a national reputation. Upon application references will be furnished from patients in all parts of the United States. All persons who are suffering from any complaints should not fail to take advantage of this opportunity for relief.

WASHOE COUNTY TAXES.—The tax roll of Washoe county for 1888 was \$97,525.69, to which is to be added the delinquent list of about \$1,500, \$1,100 of which is for taxes on O. P. railroad lands. Of this year's taxes the State receives \$39,844.27, to which is to be added about \$4,500 for taxes on personal property and licenses, which makes the amount paid into the State Treasury by this county, nearly \$45,000.

A TOSCARORA MINING SUIT.—The Treasure and Commonwealth Mining Companies of Toscarora are at loggerheads, and a suit at law is the result. The suit is to be tried in the District Court at Elko on the 3rd of December.

WHY THE ELDER MOURNETH.

A Reno Pastor's Experience With a Professor.

The Sacramento Bee, of Thursday, says:

Chief Lee received a letter from Rev. G. L. Fisher, pastor of the Baptist Church at Reno. The writer represents that Professor Norton, phrenologist, spiritualist, etc., had given an entertainment at the Reno Baptist Church, agreeing to pay six dollars for the use of the edifice. At the conclusion of the entertainment the Professor said to the Pastor, "Elder, I'll see you in the morning." That was agreeable to the pious man and he patiently waited for the morning which his never come for that night, as the Rev. Fisher writes. The Professor took the midnight train, leaving the church rent unquidated. In his letter the good man relates the circumstances of his experience with an air of utmost innocence. Chief Lee has answered the Elder's letter with a bit of advice, warning the good man to collect himself in advance and to beware of the man who promises to "meet him in the morning." At the same time the Chief felt reluctantly compelled to inform Mr. Fisher that the Sacramento Police Department is not a collection agency.

WILL SOON BE ISSUED.—Messrs. Wilson S. Bayley and Frank C. Dean, who have been preparing a brand directory of Modoc and Lassen counties, Cal., and Southwestern Oregon and Northwestern Nevada, announce their delay in delivery of the work due to the rush of work in the printing establishment, and say the books will be ready for distribution in about two weeks.

TALLULAH ORE.—A load of ore from the Tallulah mine at Dun Glen, which is now being worked by Farrington & Ross, arrived at the Reno Reduction Works yesterday. The force on the mine is to be increased.

The Carson Tribune, of last evening, says:

Senator Emmitt, of Washoe county, was among the passengers this morning and went on to Virginia City. A live young Republican is Mr. Emmitt and will do well in the Senate.

THE ROAD TO HEAVEN.

"A map of the road to heaven, by a soul in purgatory," writes an author and literary critic, describing his ideal, and humorously confessing his failure to attain it. Why, then, suffer in the purgatory of disease, when the way of escape is in plain sight? As a remedy for sorrowful afflictions of the throat and lungs, including consumption in the foeculiferous stage of tubercles, catarrh, chronic bronchitis, tumors and morbid growths of all kinds caused by impure or impoverished blood, Dr. Price's Golden Medical Discovery has neither a rival nor a worthy competitor.

Chronic nasal catarrh positively cured by Dr. Sage's Remedy.

HAPPY AND HEALTHY.

Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggists, sold by Wm. Pinner, Reno.

WHAT AM I TO DO?

The symptoms of biliousness are unhappy but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, also, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred it is rough at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain or cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, relaxes the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Lassen County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
